

An easy to use product configurator integrated with SAP Business One.

- Accurately configure custom products
- Access from SAP and outside SAP
- Quickly configure complex products
- Product rules are built into the configuration models
- Use SAP pricing
- Generate accurate BOM's if required
- Reduce errors
- Ensure all products are valid

B1 Configurator is a web-based solution that can be used to manage quotes and orders for in-house sales staff using SAP Business One.

The CIS Web Portal enables users outside of SAP Business One to create Sales Quotes and Sales Orders.

- Rules based Configurator
- Sales Quotes/Sales Orders
- Production Orders
- Bills of Materials
- Easy to use
- Graphical representation of a configured item
- Web portal
- External users

Create Quotes & Orders

Sales Quotations

CSRs and Sales Reps create quotes and orders with configurable products based on the price list assigned, using B1 Configurator.

Sales Orders

Guiding the user through questions and answers B1 Configurator creates accurate BOMs in SAP Business One if required.

Production Orders

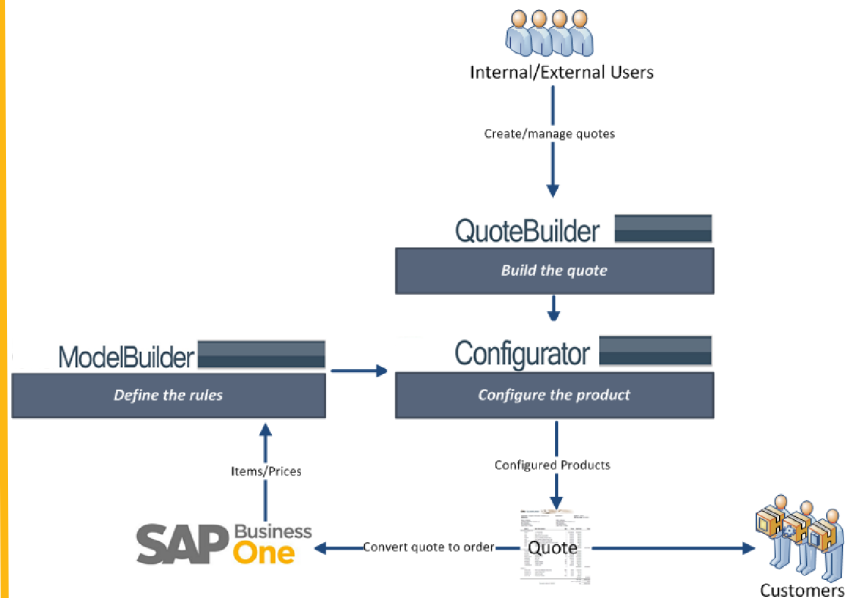

B1 Configurator can be used in a Production Order.

Browser-based applications used to automate the configuration of build-to-order products.

CIS Configurator provides clients with the capability to easily and efficiently quote and order highly customizable and configurable products.

Create Quotes & Orders online outside of SAP

Sales personnel, Dealers and resellers can access the web portal, QuoteBuilder, generating quotes with configured products that can be revised before generating a Sales Order in SAP.
